

June 2015

Get Involved!

- Sign up for [**Saturday STEMchicks Workshops**](#) that are being offered throughout Central Florida!
- Get involved with [**Engineering For Kids**](#) to help introduce STEM to ages 4 to 14 through after-school programs, classes, camps, workshops and birthday parties!
- Join [**Mad Science After Dark**](#) on the Last Saturday of Every Month in the Oviedo Mall for fun science experiments!

Keeping STEM students from dropping out of the [**STEM Talent Pipeline**](#) is essential in meeting U.S. STEM Job demands for the future. The charts on this link represent Florida's portion of an in-depth nationwide look at more than 6 million high school students in the *MyCollegeOptions* program in 2015. Overall, U.S. students' college major/career aspirations were used to determine their interest in STEM-related fields. The survey reveals that nationwide, nearly 30% - more than 1.6 million students - would like to pursue STEM careers in their futures. See how Florida compares!

Upcoming CF STEM General Meeting

The Next **CF STEM General Meeting** on **August 7th** will focus on **STEM in Entertainment and Theme Parks!** The City of Winter Garden has agreed to host this meeting because of the community cluster of companies who work in the theme park business are housed there.

Have you ever taken your students and educators to STEM education at an amusement park? Join us to learn more about STEM at theme parks where everyone can learn while having fun!

CF STEM Membership

CF STEM is now accepting credit card payments for membership dues and donation through our website! Simply click on our [**“Get Involved”**](#) page for more information.

The STEM Alliance of Central Florida and Team Orlando member, The Corridor, are working to grow and develop STEM

support and resources for schools in Florida through [stemCONNECT](#), a web portal designed to assist teachers and students in learning more about the high tech industries in Florida. It directly connects them with STEM experts who can share their knowledge about high tech career fields over an interactive web video conference.

For more information about the Corridor's stemCONNECT program or the significance of high tech companies joining the STEM Alliance of Central Florida, please contact Snak at steve.nakagawa@floridahightech.com
